SUMMARY

- AI Engineer building Generative AI, LLM, RAG, MCP, and real-time Voice AI systems for insurance operations.
- Experienced in multi-provider LLM orchestration, agentic workflows, retrieval systems, FastAPI, and speech pipelines.
- Built a configurable voice platform designed for 10,000+ daily calls across concurrent bots, with configured STT, TTS, and LLM provider adapters.

EXPERIENCE

Probus Insurance Broker Private Limited

AI Engineer | Aug. 2025 - Present | Ahmedabad, Gujarat

- Architected a configurable AI voice platform for insurance operations, designed for 10,000+ daily calls across concurrent bots with a real-time STT - VAD - LLM - TTS pipeline.
- Built provider-agnostic LLM orchestration spanning OpenAI, Anthropic Claude, Google Gemini, Groq, Mistral, and DeepSeek with health-based failover.
- Developed vehicle data mapping and normalization pipelines with rule-based scoring and insurance-domain validation for GCV and PCV quotation workflows.
- Designed MCP server architectures and n8n automation workflows that orchestrate LLMs, REST APIs, PostgreSQL, and Redis.
- Built FastAPI and Flask microservices; automated data extraction from 74+ insurance partner portals with Selenium and async HTTP.

SELECTED PROJECTS

AI Voice Calling Platform

- Pipecat, FastAPI, Twilio, VAD, STT/TTS adapters, multi-provider LLM failover, RAG, PostgreSQL, Redis, Angular, .NET, Docker, Prometheus, Grafana.

Vehicle Catalogue Matching Engine

- Python, pandas, RapidFuzz, PostgreSQL, and audit trails for GCV/PCV partner catalogue normalization.

API Health Monitor

- Async FastAPI monitor for 74+ partner APIs with UP/SLOW/DOWN/ERROR classification and Email, Slack, Teams alerts.

SURAJ DEEPAK JHA

AI ENGINEER - PROJECTS, SKILLS, AND EDUCATION

MORE PROJECT WORK

Stock Intelligence Engine

- FastAPI stock-research system combining price technicals, 11 news feeds, FinBERT, sentence-transformers, FAISS, and an OpenAI or local Ollama analysis option.

WhatsApp Document Verification Bot

- FastAPI, WhatsApp Cloud API, OpenCV/Tesseract, PostgreSQL, sentence-transformers, FAISS, and Fernet encryption for privacy-first document processing.

Conversational Quote Assistant

- Flask chat flow that collects insurance details and calls insurer quotation APIs, with transparent demo fallbacks when a provider is unavailable.

TECHNICAL SKILLS

AI and agentic systems

- Generative AI, LLM systems, RAG, Agentic AI, MCP, function calling, structured outputs, prompt engineering, NLP, machine learning.

LLM providers and local AI

- OpenAI, Anthropic Claude, Google Gemini, Groq, Mistral, DeepSeek, Ollama.

Voice AI

- Pipecat, Twilio Media Streams, Silero/WebRTC VAD, Sarvam AI, Deepgram, ElevenLabs, Cartesia, Azure Speech.

Backend and data

- Python, FastAPI, Flask, REST APIs, WebSockets, Server-Sent Events, AsyncIO, C#, .NET, ASP.NET Core, PostgreSQL, MySQL, Redis, SQLite.

Retrieval, data, and delivery

- sentence-transformers, FAISS, FinBERT, Pandas, RapidFuzz, NumPy, scikit-learn, Docker, Git, Linux, CI/CD, Prometheus, Grafana, AWS S3, Azure.

EDUCATION AND CERTIFICATIONS

University of Mumbai - Master of Computer Applications

Sept. 2024 - May 2026 | Mumbai, India

Nagindas Khandwala College - B.Sc. Computer Science

Jun. 2021 - May 2024 | Mumbai, India

Certification: Cloud Computing and Distributed Systems - NPTEL (Elite), IIT Kanpur - Score: 76% - Jan-Mar 2026

Claude 101 - Anthropic Claude AI Fundamentals - Anthropic

References and detailed case studies are available through the portfolio.
